Description

Pochin Construction Ltd have recently completed the construction of this two storey communication centre for BASC under a traditional contract with a value of £750,000.

The building took 26 weeks to complete and consists of a ground floor office, staff facility and recording studio. A large open plan lobby with oak stairs, glass and stainless steel balustrade leads to the first floor meeting room, comms room and design studio.

Glazed link leads to an existing listed building.

The building is extensively serviced with air conditioning, under-floor heating and provision for IT equipment throughout.

Externally we have constructed a retaining wall, new tarmac road and car parking. Landscaping to the adjacent stream and section 278 works to an existing bridge completed the contract.

Value

£750k

Contract Period

26 weeks
