

# Bannatynes Health Club, Shrewsbury

## Description

A three storey steel frame building with a composite panel roof, facing brick and rendered block facade with aluminium windows and curtain walling.

The new leisure facility consists of swimming pool, jacuzzi, sauna and steam rooms, changing rooms and facilities, lounges and rest area at ground floor level, large open plan gymnasium at first floor level with two dance studios on second floor level. A lounge bar was also installed.

This leisure club was built on the site of a golf club and the project involved providing the golf club with changing/locker rooms and a pro shop which remained operational throughout the build.
